

7 Grand Challenges This Century

- Four Great Fears (“Existential Threats”) : **SURVIVAL**

See **build-a-world.org**

- Internet/AGI/IOT if we fail to reach Sustainable Intelligent Internet (SII) --- **Depends on mind, intelligent systems**
- Climate extinction, all of our species and many others
- Misuse of nuclear tech, or biotech (e.g. werbos.com/NATO_terrorism.pdf)

- Two Great Hopes: **GROWTH**

- Quantum leap in attaining human potential, including our connections to each other & our noosphere (soul,qi)
- Economically sustainable settlement of space (e.g. NSS)

- **SITUATIONAL AWARENESS FOR HUMANS IN COSMOS**: New tech (QAGI/axions) to see the sky
